Additional Remark and/or Explanation

I. I.

On January 14, 1983, the FIT contacted Mr. Arthur F. Pope, Manager, Environmental Policy & Planning, ARCO Petroleum Products Company, 515 South Flower Street, Los Angeles, California 90071; (Telephone: 213/486-1913) to obtain background information and past history of the Old Sinclair Consolidated Oil Corporation Refinery Site in Fort Worth, Texas. Mr. Pope informed the FIT that there are no records, recollection or knowledge of wastes handling at this site by the present employees. The wastes originated from petroleum refining and related activities and were disposed of on plant property, possibly from 1930 to 1948. However, a refinery was operated at this site. In those days, it was common industry practice to dispose of wastes on the plant property and it is assumed that this disposal practice might have been followed. Mr. Pope further stated, the refinery site (166 acres approx) was purchased by ARCO Petroleum Products Company, sometime in 1969 and he advised the FIT to contact Mr. H.L. Bryan, Plant Superintendent, Foremost Petroleum Co., Fort Worth, Tx for additional information.

On January 24, 1983, the FIT was able to contact Mr. Bryan. The inspection was scheduled for February 15, 1983. Mr. Bryan told the FIT that the Foremost Petroleum Co. purchased 49.33 acres property from ARCO Petroleum Products Co. in mid 1977. According to Mr. Bryan, the Foremost Petroleum Company receives, stores and distributes gasoline products only, which are then delivered by ARCO through underground pipelines and trucks. He further stated that, out of 166 acres, approximately 80.45 acres might be sold to the Volkswagen Company of America, Inc., Fort Worth Manufacturing Plant, 4401 Blue Mound Road, Fort Worth, TX 76107 (Telephone: 817/624-4949) and 36.28 acres were purchased by Farrington & Associates, Inc., Engineers and Planners, 4410 West Vickery Blvd, Fort Worth, Tx 76107 (Telephone: 817/738-5431).

After the inspection was completed at the Foremost Petroleum Company property, the FIT contacted Mr. David Farrington, President of Farrington & Associates, Inc. to obtain background information as well as his permission to enter his property. The permission was granted by Mr. Farrington, who confirmed that the property had been purchased in the later part of 1977. He further stated that there was no evidence of any potential hazards to the environment or human health, when the property was purchased. The property is still vacant and presently, undeveloped. The future plan is to develop and build an industrial complex/warehouse on the property.

Additional Remark and/or Explanation

I.I.

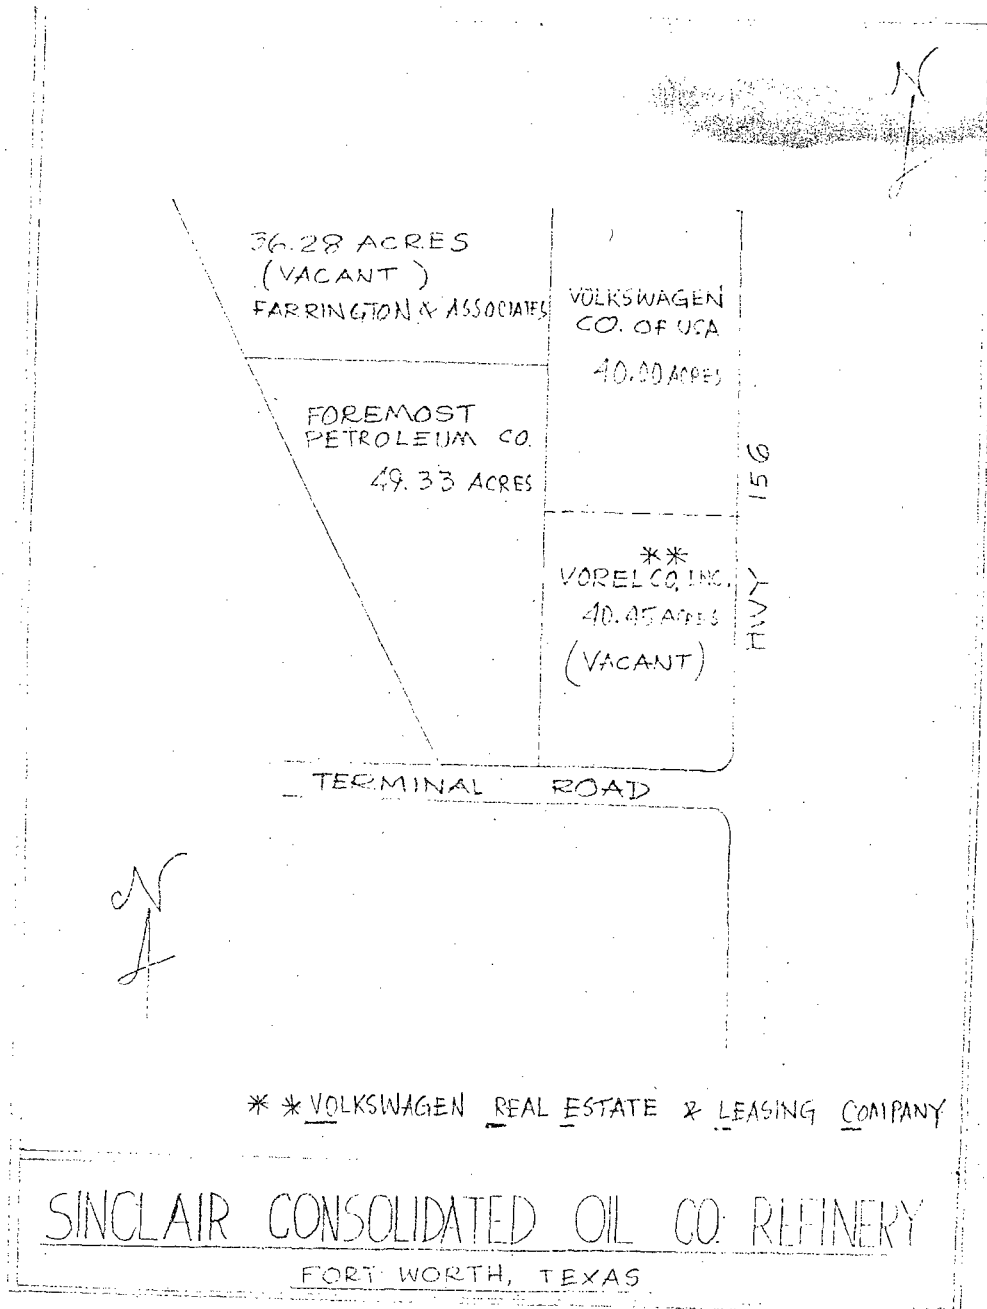

On March 8, 1983, Mr. Ray O'Connel, Superintendent of Plant Engineering, Volkswagen Company of America, Fort Worth, Tx informed the FIT that sometime in 1978, the VORELCO (Volkswagen Real Estate & Leasing Company) Inc., (Mailing address: 600 Sylvan Avenue, Englewood Cliffs, New Jersey 07632; Telephone: 201/894-8629) purchased 80.85 acres (approx) of property from ARCO Petroleum Products Co. Mr. O'Connel further stated that the Volkswagen Co. purchased 27.15 acres of the property sometime in 1982, for the plant's process/office areas and an additional 12.85 acres for future expansion, from VORELCO, Inc. who still owns 40.45 vacant acres. According to Mr. O'Connel, Volkswagen Company manufactures automobile air-conditioners for Volkswagen Products for shipment to Germany and throughout the United States.

The present property owners confirmed to the FIT that they have not contributed any wastes to the area, which was formerly used by the Sinclair Consolidated Oil Corporation Refinery. These statements were verified by the FIT during the reconnaissance inspection.

The entire property (166 acres) is located in an industrial area. Drinking water is supplied by the City of Fort Worth, Tx and there are no uses of groundwater in the vicinity of the site.
